

In Italy:

A12: take the exit Carrodano/Levanto (not Deiva M./Levanto !). So do not obey your navigation system. It is possible but the road is small, not good and not much faster. When you arrive on the secondary road, right after the toll point, go to the right; direction Varese Ligure. Follow the signs Varese Ligure. You will pass a small dam and drive through two tunnels and you still follow Varese Ligure. In San Pietro Vare, a small village, keep to the right. You drive through the village and after a while, you go left upward direction Maissana. There is also a sign pizzeria Rita. Follow the road and you see the pizzeria on your left side. Follow the road and you pass restaurant Mafun in S. Maria and then, after a curve in the road you go left direction Torza. After 5 minutes you arrive at Frasneggi. There is a sign along the road. The access is style but many people went down.

Route from Pisa, airport Galileo Gailei

From the airport follow the signs Autostrada 12 (E80) direction Geova, Viareggio en La Spezia. At the autostrada take the exit Brugnato (85 km, 50 minutes). Go straight ahead on the roundabout direction Varese Ligure (SP 566).

You will drive through two tunnels and you still follow Varese Ligure. In San Pietro Vare, a small village, keep to the right. You drive through the village and after a while, you go left upward direction Maissana. There is also a sign pizzeria Rita. Follow the road and you see the pizzeria on your left side. Follow the road and you pass restaurant Mafun in S. Maria and then, after a curve in the road you go left direction Torza. After 5 minutes you arrive at Frasneggi. There is a sign along the road. The access is style but many people went down.

Have a good trip and if you have any questions:
